9.For more functions, please download APP “Zeroner” to use.

【FAQ】

1. Q:When connected with App, the data SYNC is finished but the bracelet time display is still incorrect。

A: Reset the bracelet and try data SYNC again

Q: After the bracelet connected with APP, why the bracelet didn't show call ID when the call coming?

A: Android Phone: After connected with bracelet with APP, please allow "Zeroner" to visit calls, SMS, contacts and keep "Zeroner" running in background. If there are security software on your phone, set the software "Zeroner" as "trust".

IOS: If your phone is iPhone, please restart your phone and connect the bracelet again. When connect please wait until the phone pop up "Bluetooth pairing request" and click "pair", the call ID display function comes.

2. Q: The bracelet icon shows the Bluetooth was connected, but the APP cannot SYNC data?

A: Generally it is caused by the Bluetooth of the phone. Please switch off the APP firstly, restart the Bluetooth and repair. If the above step does not work, please restart your phone and try again.

3. Q: Why my bracelet lose connection with my phone frequently?

A: Please check if your phone or other security software sets "Zeroner" as trusted APP or not. If not, pls set it as trusted and try again.

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

You are cautioned that changes or modifications not expressly approved by the party responsible for compliance could void your authority to operate the equipment.
